仁濟教育服務簡介 Education Services

概況

仁濟醫院教育服務始於1980年代初，現有廿三間學校，包括六間中學、五間小學及十二間幼稚園／幼兒中心，分布於荃灣、屯門、天水圍、上水、葵青、大埔、沙田、將軍澳、觀塘及西環等地區。本院現有學生總人數逾七千人。

辦學抱負

貫徹「尊仁濟世」精神，提供優質全人教育，培育學生成為國家棟樑。

辦學使命

秉承「尊仁濟世」的辦學精神，因應學生的不同需要，興辦不同類型的學校及提供多元的校本課程；因材施教，啟發學生的個人潛能，培育他們的獨立思考與創新能力，並協助他們建立良好品格。

Overview

Yan Chai Hospital has been providing education services since the 1980s. We now have a total of 23 schools in operation, including 6 secondary schools, 5 primary schools and 12 kindergartens/child care centres. These schools respectively are located in Tsuen Wan, Tuen Mun, Tin Shui Wai, Sheung Shui, Kwai Tsing, Tai Po, Shatin, Tseung Kwan O, Kwun Tong and Western District. There are more than 7,000 students studying in our schools.

Our Vision

We pledge to carry out the principle of "Serving the Community in the Spirit of Benevolence"; to provide quality holistic education and to prepare our students to be the pillars of our country.

Our Mission

We uphold the principle of "Serving the Community in the Spirit of Benevolence". We operate different types of schools and offer a diversified school-based curriculum so as to accommodate students of varying needs. We provide education based on students' abilities. We develop students' potentials, cultivate their independent thinking skills as well as their creativity, and help them to establish good character.

班級結構

Class Structure

2022/2023年度，本校共有25班，分別為一年級4班、二年級4班、三年級4班、四年級5班、五年級4班及六年級4班。另設加強輔導班一組。

In the 2022/2023 school year there are 25 classes, including 4 classes in Primary 1, 4 classes in Primary 2, 4 classes in Primary 3, 5 classes in Primary 4, 4 classes in Primary 5 and 4 classes in Primary 6. There is 1 IRTP group.

教學語言

Medium of Instruction

本校致力提升學生的「兩文三語」能力。一、二年級粵教中，三年級下學期逐步推展普教中，四年級全面實施普教中，循序漸進，加強輔導班除外。同時透過以讀帶寫的課程，提高學生的中文及普通話水平。

外籍英語教師(NET)與原任英語教師進行協作教學。透過參加教育局的PLP-R/W課程，以有趣、輕鬆的學習活動，讓學生熱愛學習英語。

2022/2023年度一至三年級各一班推行英語「SPARK創新課程」，以英語作為主要學習語言，貫通英文科、常識科、視覺藝術科及生命教育課程。

Our school aims at nurturing biliteracy and trilingualism among our students. For the Chinese Language subject, Cantonese is the medium of instruction in Primary 1 and 2. In the second term of Primary 3, both Cantonese and Putonghua are used. From Primary 4 onwards, except for the IRTP group, only Putonghua is used. In addition, our school-based curriculum *From Reading to Writing* also helps enhance students' proficiency in written Chinese as well as their fluency in Putonghua.

For the English Language subject, our Native-speaking English teacher (NET) collaborates with the English language teachers in the co-teaching lessons. With the implementation of the EDB's *Primary Literacy Programme - Reading and Writing (PLP-R/W)*, our students capitalise on their enthusiasm and motivation to learn English through various interesting learning activities.

To further develop a rich English language learning environment, the school is introducing the *SPARK Programme* in one of the classes from Primary 1 to 3 respectively. The programme integrates the curricula of English Language, General Studies, Visual Arts and Life Education using English as the main medium of instruction.

學校課程特色

Characteristics of School Curriculum

學校以全人發展為目標，上午為學科學習，下午則進行體驗式學習，包括閱讀課、語言課、才能訓練、文化日、科學日及週會等，讓學生在知識、技能和態度這三個範疇中得到充分的發展和空間，豐富學生的全人發展經歷。

本校重視培養學生素養，致力進行跨學科、培養學生21世紀素養的創新課程設計。一至三年級各一班推行英語「SPARK創新課程」，以英語作為主要學習語言，課程整合並貫通英文科、常識科、視覺藝術科及生命教育課程，配合全方位學習，讓學生打破科目領域的間隔，靈活運用學科知識。

學校積極發展電子學習，於整個四、五及六年級開辦BYOD電子班。課程配合學科特色，包含不同電子學習策略，例如：翻轉課堂、互動課堂、即時評估及網絡延伸學習等，提升學生的學習興趣。

We commit to providing whole-person education. Our school timetable is infused with all-round development and holistic education. Subject-based learning takes place in the morning session, while experiential learning is the focus in the afternoon session. Students are engaged in a wide range of activities, including Reading Class, Language Class, school-based OLE programmes, Arts Day, Science Day as well as many other constructive programmes.

To better equip students with 21st century skills, the school is introducing the cross-curricular programme *SPARK* in one of the classes from Primary 1 to 3 respectively. With English as the main medium of instruction, the programme connects the knowledge of different disciplines such as English Language, General Studies, Visual Arts and Life Education. In alignment with Life-wide Learning, the programme helps students unite concepts and skills from various disciplines and thus broadens their learning space.

We have implemented the *Bring Your Own Device (BYOD) Scheme* in all Primary 4 to Primary 6 classes. In order to develop our subject-based e-Learning curriculum, different e-Learning pedagogies and approaches, such as flipped classroom, interactive learning tools, instant assessments and feedback, as well as online extended learning activities, have been adopted. Our interactive e-Learning platform helps teachers identify strengths and weaknesses of students more efficiently and effectively.

◆一至三年級「SPARK創新課程」以進行跨學科學習

為發展學生的共通能力，本校積極發展STEAM課程。在常識科中，加強「動手做」的元素，着重實踐與科學探究，同時讓學生在跨學科STEAM專題研習和科技日中展現。學校在課後亦提供STEAM培訓班、編程班、科學學會等活動，從中提高學生的溝通、創造思維及解難能力。

本校藝術課程着重學生心靈發展，鼓勵學生參與藝術評賞、創作及表演活動，形式包括舞蹈、戲劇、音樂、朗誦、視覺藝術、媒體藝術、綜合藝術等。本校具特色校本視藝課包括「編織幾何」、3D「光影燈座」、光雕藝術、鐳射立體製作等。

為了讓學生正面成長，本校推行「讓我閃耀計劃」，學生在活動中得到不同的學習經歷，例如領袖訓練、境外學習、才能訓練等，結合社區的不同資源和機構，讓學生在體驗中成長。另外，學校根據每位學生的特質、個性和不同方面的表現及才能，成立了「資優人才庫」，讓學生能按自己的步伐在不同的領域發展。

◆利用iPad探索對稱的世界

We have developed and optimized the STEAM curriculum to enhance students' generic skills. In General Studies (GS), equal emphasis is placed on theory and practice in which maker pedagogy is embedded. In conjunction with the GS curriculum, the annual STEAM project, Science and Technology Day and after-school classes, such as Coding and Science Club, provide platforms for students to acquire and apply their knowledge in practical and positive ways.

With the mental and emotional health of our students being one of our primary concerns, our arts curriculum aims to nurture students' wellbeing in the areas of visual, performance, multimedia, and integrated art. Students are encouraged to participate in both the creation and critiquing of art, helping to foster the importance of thinking creatively and critically. Our school's distinctive school-based Visual Arts curriculum includes the weaving of geometric shapes, the design and production of 3D lampshades, 3D mapping and 3D laser design and assembly.

To provide a positive learning environment, we have implemented the *ALL STAR Programme*. Students can broaden their experience in different aspects, such as leadership training, overseas study tours, and numerous other beneficial learning experiences. In addition, we have set up a talent pool in which students' characters and talents are analysed to better their individual development at their own pace.
